

▶ Help reduce the spread of COVID-19 with these tips

## Tips to keep you and your vehicle safe

### Protecting you & the community

#### Wash your hands regularly

- Before you leave your home, wash your hands thoroughly at the sink for 20 seconds with soap and warm water.
- Keep hand sanitizer ready and available in your car.
- Following the completion of a job, disinfect your hands and wipe down your vehicles.

#### Wear gloves when possible

- A good item to have while on the road is a pack of nitrile gloves. Wear a new set of gloves for every job you start through the day, to reduce the chance of contracting any germs at your visits.
- Be sure to wear gloves whenever you handle items such as your credit card, corporate fuel card, cash and especially the fuel pump. These items can hold the virus.
- If you don't have gloves, you can improvise with alternative options to protect yourself and others, such as a plastic bag or towel. Remember to safely discard your alternative option once you are finished to minimize the spread of COVID-19.
- Keep a trash bag or can in your vehicle to place used safety items (gloves, cleaning cloths, etc.) and empty it daily.

### Protecting your vehicle

#### Exercise caution during deliveries

- Call ahead and confirm if alternate delivery options are available to limit physical interaction.
- When person-to-person interaction is required, be sure to observe a minimum of 6ft. distance.
- Avoid handing items directly to individuals or directly accepting items from an individual – instead, place items on a clean surface and pick up from there with gloves.
- Once finished with a delivery, clean any surfaces touched and dispose of gloves/ cleaning supplies in a designated trash bag that is disposed of daily.

#### Disinfect surfaces with wipes & cleaners

- Following the completion of a job, disinfect your hands and wipe down your vehicles with [EPA approved, safe cleaners](#). Not all EPA approved cleaners are safe to use within a vehicle, so be sure to check that it is safe for vehicles before doing so.
- Wipe down the inside of vehicle, such as the door, dashboard, seat, door handle, and any exposed surfaces with spray, disinfectant or disinfectant wipes after anyone enters your vehicle.

In general – always be prepared. Be sure to have hand sanitizer, wipes, gloves and a trash bag in your vehicle at all times. For more helpful information visit our [COVID resource center](#).
